EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At page 4, line 4, change "other a digitizing" to --other digitizing--.

In claims 3 and 4, at line 2 in each of the claims, change "at some" to --at least some--.

2. Applicant is encouraged to identify typographical or other trivial errors overlooked by the examiner, in order to correct them under Rule 312, rather than waiting to discover that a Certificate of Correction is needed for the issued patent.

Allowable Subject Matter

- 3. Claims 1-20 are allowed.
- 4. The following is an examiner's statement of reasons for allowance:

The prior art does not specifically disclose applicant's claimed "method" [i.e. claims 1-10] or "apparatus" [i.e. claims 11-20], wherein applicant's invention is particularly distinguished from prior art by the limitations of "...processing voltage waveform data associated with a switching device to determine switching edge and slope parameters..." to "...identify those portions of voltage waveform data associated with switch state transition portions..." wherein "...peak power levels at identified portions are calculated."

Art Unit: 2829

The claimed invention provides a method and apparatus useful for analyzing power dissipation in a device having switching transients, such as a switch-mode power supply, allowing for design adjustment and refinement minimizing power dissipation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Tokar can be reached on 571-272-1812.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
